

This report contains the collective views of an international group of experts and does not necessarily represent the decisions or the stated policy of either the World Health Organization or the United Nations Environment Programme

Environmental Health Criteria 8

Other titles available in the ENVIRONMENTAL HEALTH CRITERIA series include:

1. Mercury
2. Polychlorinated Biphenyls and Terphenyls
3. Lead
4. Oxides of Nitrogen
5. Nitrates, Nitrites and *N*-Nitroso Compounds
6. Principles and Methods for Evaluating the Toxicity of Chemicals, Part 1
7. Photochemical Oxidants

SULFUR OXIDES AND SUSPENDED PARTICULATE MATTER

Published under the joint sponsorship of the United Nations Environment Programme and the World Health Organization

INVENTARIO N. *AM*

World Health Organization
Geneva, 1979

Publications of the World Health Organization enjoy copyright protection in accordance with the provisions of Protocol 2 of the Universal Copyright Convention. For rights of reproduction or translation of WHO publications, in part or *in toto*, application should be made to the Office of Publications, World Health Organization, Geneva, Switzerland. The World Health Organization welcomes such applications.

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

ENVIRONMENTAL HEALTH CRITERIA FOR SULFUR OXIDES AND SUSPENDED PARTICULATE MATTER	8
1. SUMMARY AND RECOMMENDATIONS FOR FURTHER RESEARCH AND ACTION	10
1.1 Summary	10
1.1.1 Chemistry and analytical methods	10
1.1.2 Sources of sulfur oxides and particulate matter	11
1.1.3 Dispersion and environmental transformations	11
1.1.4 Environmental concentrations and exposures	11
1.1.5 Absorption, distribution, and elimination	12
1.1.6 Effects on experimental animals	13
1.1.7 Effects on man	13
1.1.7.1 Controlled exposures	14
1.1.7.2 Industrial exposure	14
1.1.7.3 Community exposure	15
1.1.8 Evaluation of health risks	16
1.1.8 Recommendations for further research and action	16
2. CHEMISTRY AND ANALYTICAL METHODS	17
2.1 Chemical and physical properties	17
2.1.1 Sulfur oxides	17
2.1.2 Suspended particulate matter	18
2.2 Methods of sampling and analysis	24
2.2.1 Sulfur dioxide	24
2.2.2 Suspended sulfates and sulfuric acid	26
2.2.3 Suspended particulate matter	27
2.2.4 Dustfall (deposited matter)	29
3. SOURCES OF SULFUR OXIDES AND PARTICULATE MATTER	30
3.1 Natural occurrence	30
3.2 Man-made sources	30
3.3 Characteristics of sources	32
4. DISPERSION AND ENVIRONMENTAL TRANSFORMATIONS	33
4.1 Dispersion	33
4.2 Transformation and degradation	35
5. ENVIRONMENTAL CONCENTRATIONS AND EXPOSURES	38
5.1 Concentrations in outdoor air	38
5.2 Concentrations in indoor air	45
5.3 Concentrations in work places	47
5.4 Assessment of exposures	48
6. ABSORPTION, DISTRIBUTION, AND ELIMINATION	50
6.1 Absorption and deposition in the respiratory tract	50
6.1.1 Sulfur dioxide	50
6.1.2 Airborne particles	51
6.2 Clearance from the respiratory tract and distribution	51
6.2.1 Sulfur dioxide	51
6.2.2 Particulate matter	51
