

This report contains the collective views of an international group of experts and does not necessarily represent the decisions or the stated policy of either the World Health Organization or the United Nations Environment Programme.

Environmental Health Criteria 10

CARBON DISULFIDE

Published under the joint sponsorship of
the United Nations Environment Programme
and the World Health Organization

INVENTARIO N. 13

Other titles available in the ENVIRONMENTAL HEALTH CRITERIA series include:

1. Mercury
2. Polychlorinated Biphenyls and Terphenyls
3. Lead
4. Oxides of Nitrogen
5. Nitrates, Nitrites and *N*-Nitroso Compounds
6. Principles and Methods for Evaluating the Toxicity of Chemicals, Part 1
7. Photochemical Oxidants
8. Sulfur Oxides and Suspended Particulate Matter
9. DDT and its derivatives

World Health Organization
Geneva, 1979

CONTENTS

	Page
ENVIRONMENTAL HEALTH CRITERIA FOR CARBON DISULFIDE	9
1. SUMMARY AND RECOMMENDATIONS FOR FURTHER RESEARCH	11
1.1 Summary	11
1.1.1 Uses and sources of exposure	11
1.1.2 Populations at risk	11
1.1.3 Estimation of exposure	11
1.1.4 Metabolism	12
1.1.5 Mechanisms of toxic action	13
1.1.6 Carbon disulfide poisoning; evaluation of the health risk to man	13
1.1.7 Diagnosis of carbon disulfide poisoning	15
1.1.8 Surveillance of exposed workers	15
1.2 Recommendations for further research	16
1.2.1 Analytical aspects	16
1.2.2 Studies on health effects	16
1.2.3 Mechanisms of toxic action	16
2. PROPERTIES AND ANALYTICAL METHODS	17
2.1 Chemical and physical properties	17
2.2 Analytical procedures	17
2.2.1 Measurement of carbon disulfide in air	17
2.2.2 Sampling methods	18
2.2.2.1 The activated charcoal tube method	18
2.2.2.2 The liquid absorption method	18
2.2.3 Methods for the determination of carbon disulfide	19
2.2.3.1 Direct measurement using gas detector tubes	19
2.2.3.2 Photometric determination	19
2.2.3.3 Gas-liquid chromatographic determination	19
2.2.3.4 Continuous measurement using gas analysers	20
2.2.3.5 Determination of metabolites in urine	20
3. EXPOSURE TO CARBON DISULFIDE	22
3.1 Occupational exposure	22
3.2 Community exposure	22
4. METABOLISM	24
4.1 Absorption	24
4.1.1 Inhalation	24
4.1.2 Skin absorption	25
4.2 Distribution and biotransformation	25
4.2.1 Balance of absorbed carbon disulfide	25
4.2.2 Transport by the bloodstream	26
4.2.3 Determination of carbon disulfide in blood	26
4.2.4 Distribution in the organism	26
4.2.5 Binding in blood and tissues	28
4.3 Elimination of carbon disulfide and metabolites	28
4.3.1 Elimination by breath, saliva, sweat, and faeces	28
4.3.2 Excretion of carbon disulfide and metabolites in urine	29
