

The **International Programme on Chemical Safety (IPCS)** is a joint venture of the United Nations Environment Programme, the International Labour Organisation, and the World Health Organization. The main objective of the IPCS is to carry out and disseminate evaluations of the effects of chemicals on human health and the quality of the environment. Supporting activities include the development of epidemiological, experimental laboratory, and risk-assessment methods that could produce internationally comparable results, and the development of manpower in the field of toxicology. Other activities carried out by the IPCS include the development of know-how for coping with chemical accidents, coordination of laboratory testing and epidemiological studies, and promotion of research on the mechanisms of the biological action of chemicals.

CONTENTS

| | <u>Page</u> |
|---|-------------|
| ENVIRONMENTAL HEALTH CRITERIA FOR CHROMIUM | |
| 1. SUMMARY AND RECOMMENDATIONS | 11 |
| 1.1 Summary | 11 |
| 1.1.1 Analytical methods | 11 |
| 1.1.2 Sources of chromium, environmental levels and exposure | 12 |
| 1.1.3 Metabolism | 13 |
| 1.1.4 Effects on experimental animals | 14 |
| 1.1.5 Effects on human beings | 15 |
| 1.1.5.1 Clinical and epidemiological studies | 15 |
| 1.1.6 Evaluation of risks for human health | 17 |
| 1.2 Recommendations for further research | 18 |
| 1.2.1 Analytical methods | 18 |
| 1.2.2 Sources of chromium intake | 18 |
| 1.2.3 Studies on health effects | 19 |
| 1.2.4 Interaction with other environmental factors | 19 |
| 2. PHYSICAL AND CHEMICAL PROPERTIES AND ANALYTICAL METHODS | 20 |
| 2.1 Physical and chemical properties | 20 |
| 2.2 Analytical methods | 23 |
| 2.2.1 Sampling | 23 |
| 2.2.2 Analytical methods | 24 |
| 3. SOURCES IN THE ENVIRONMENT, ENVIRONMENTAL TRANSPORT AND DISTRIBUTION | 32 |
| 3.1 Natural occurrence | 32 |
| 3.1.1 Rocks | 32 |
| 3.1.2 Soils | 33 |
| 3.1.3 Water | 34 |
| 3.1.4 Air | 35 |
| 3.1.5 Plants and wildlife | 37 |
| 3.1.6 Environmental contamination from natural sources | 36 |
| 3.2 Production, consumption, and uses | 37 |
| 3.3 Waste disposal | 38 |
| 3.4 Miscellaneous sources of pollution | 39 |
| 3.5 Environmental transport and distribution | 40 |
